Subject: Detailed Information about Learn by Fun and LBF Product.

(Special Discount Scheme for Reference Schools Only)

LBF Publication Pvt. Ltd. is a registered company under the Company Act and its registration No. is U22219MP2066PTC019083. This Company is an associate concern of “Agarwal group”. This is a national & international level group. The founder Chairman of this group is Mr. Purshottam Agarwal.

The course content of LBF books is designed according to changed New Education Policy (NEP) implementation by Indian Government. Books are published in English Medium from Nursery to class 8th, All in One series from Play Group to class 5th we have all books evaluation wise and in Augmented Reality (AR) we have book from class 1st to 5th and also for Hindi Medium we have books from Nursery to class 5th. Presently LBF books are made available all over the country covering every village, tehsil, district, city, town and metropolitan about 6,75,000 places countrywide. Special discount which was provided last year in the session 2022-23 to 50-60 thousand schools will be available this year too. For detailed information, contact the above given number of the Administrative office (AO).

Besides this, for the present Academic session, LBF has created Audio-Visual Digital App based on LBF books, considering the value of time. The details of the same are as under:

S.No.	Name of Product	Based on LBF Books Series
1.	OLS App for Students	All-in-One
2.		English Medium
3.	OLS App for Teacher	All-in-One
4.		English Medium
5.	OTT App for Teachers Only	English Medium

Above mentioned services will be available in all over the country 24 x 7 on Android Mobile (version 6.0 and above) through OLS App Online Home Support system & OTT (Online Teacher Training) App. This subscription will be available for complete Academic session from the date of payment till 31st March,2024.

Important rules and informations for School management/ Principal

(for Academic Session 2023-24 w.e.f 01 October 2022 – 30 September 2023)

1. If any school implements or prescribes LBF book in loose Books/sets/series or takes subscription of above mentioned on Online Digital App, then the school can be given books & online digital services on special discount. For this, they can contact Administrative office (AO) at Sales Department for special discount. Specimen copy & Teacher's Copy is included in this special discount. Company publishes books on the basis of changed New Education Policy (NEP) only for classes 5th & 8th and does not publish books related to any other state board. Therefore, you can take the decision according to your discretion.
2. The company wants to bring to your knowledge that all schools across Indian will get equal discount. Any school that implement LBF Books of cost Rs. 500 to 10 Lakhs delivered to its address for the whole session and transportation charges will borne by the company.
3. If any school that wants to get books from LBF will give an authority letter in favour of LBF wherein they need to clearly specify the name of billing party (person for billing), consignee party (name of person /party receiving books) according in the given format (Enclosed-5), if any school wants to authorise more than one billing party and consignee party then they need to fill the additional format (Enclosed-5) mentioning the name of person or bookseller. Company prefers is giving this facility directly to the school because company book seller/salesman create disputes that's why company doesn't want to work through the bookseller or salesman.
4. Company does not have objection if the school appoints any bookseller or a person any one as per their mutual understanding. Company will not be responsible for the transactions between you and sales counter / Billing Party.
5. Books will be dispatched after the advance payment is received. There is no provision of return policy for the sold out books. Therefore you are requested to place the order for books as per your requirement in installments. If you place the order even for Rs 200 -Rs 500 by the end of the session, company will send those books.

Content and Its Importance Of Series Of LBF Books (Excellence/All-in-One/HM)

Learn By Fun -The LBF books have been designed keeping in view the standards set by nature for example by seeing the seed of Neem or Mango no scientist can experiment in lab and predict it will grow into a big tree or not but each seed has the possibility to bloom into a tree.

For the process making a seed into a tree the seed has to be first sown into a small pit then it needs sunlight and little water. Sunlight is provided by the nature but water is to be given by the one who has planted the seed. After this process, this seed germinates and after being given proper sunlight and water, in next 5-7 days, it blooms into a plant, and by receiving proper insecticides, fertilizer, sunlight and water it turns into a solid trunk. To protect this trunk it is surrounded with fences as protection cover so that no animal can harm it. When this trunk become 3-4 feet long it doesn't need any caretaking and within few years, it strengthens its roots in the land and becomes the tree. This tree provides oxygen, fruits, flower, shed to people throughout its life span. It doesn't ask anything from anyone.

This growing process from seeding to turning to a tree is the idea behind the conceptualization of LBF.

The life of the author of these LBF books started from child labor to a successful entrepreneur who spent ten years of his life and spent crores of rupees to prepare the book. The seeds of these books have been planted in the following way. From the experience of the author's life journey, he has come to know that there are many adversities in the Indian school education system, such as something goes on in practice and something else is taught in schools. Therefore highly educated students even do not get proper jobs they keep on stumbling door to door to find a job. To avoid all these anomalies of school education system and to give a real education to the students, this LBF technique is created by the author. This technique provides proper blend of theoretical and practical knowledge which helps students to apply their knowledge in practical life successfully and the whole explanation part is given in very simple language so that everyone can make a connect easily.

The journey of a seed to become a strong tree is the base of all subjects course content since Nursery to class VIII the subject wise topics given below will make the point clearer.

English Subject (Nursery To Class 8th) In the beginning it is taught, A for Apple, B for Bat, C for Cat.
